Covid July 2020

Hello!

There are so many horses around this year...and many colts being born each week! Their stick legs strengthen each day and they grow in size so quickly.

Mark puts finishing touches on the church west side. He worked on the north and west sides damaged by the 2018 hail storm. He replaced 9 windows, many pieces of siding and lots more that I don't even understand. To work around his schedule and get ahead of the heat of the day...started at 5 AM!! Only the dogs were awake at that hour! Mark is a contractor and an employee at Red Cloud.

Caulking & putting up the dryer vent

Our 8 outside green doors received a "green lift" with a fresh coat of paint. Another of the 2018 hail storm repairs.

BLESSINGS RECEIVED...

The garden behind the church missed the special friends and expert gardeners' touch of Vern, Dorothy, Wayne and Lori. Because of the Coronavirus, they were not able to till, smooth, weed and sow seeds. The garden is bearing some vegetables slowly and when I

see it in the "back yard" I remember the friends who for several years have begun this "patch of plenty" that is shared with the church family and the Oglala community. Wopila!

The Glory of God on 2 different evenings.

Know of our prayers for you!
